

MYSQL CRUD OPERATIONS

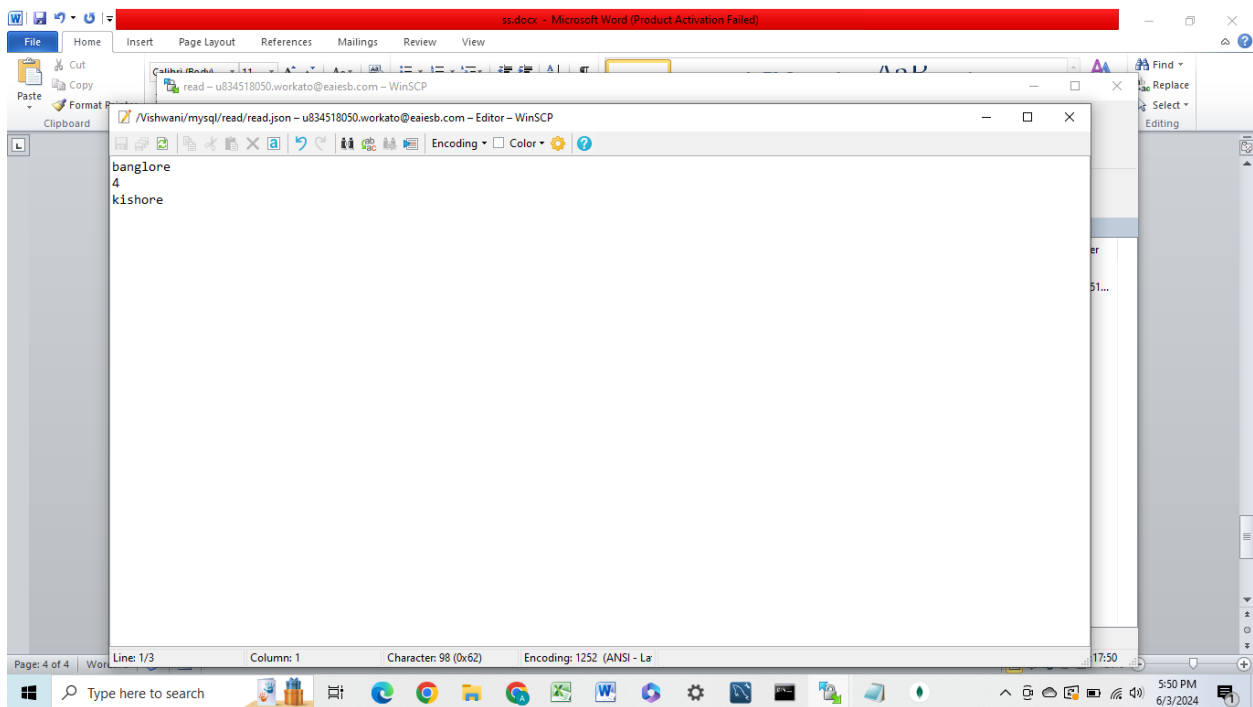

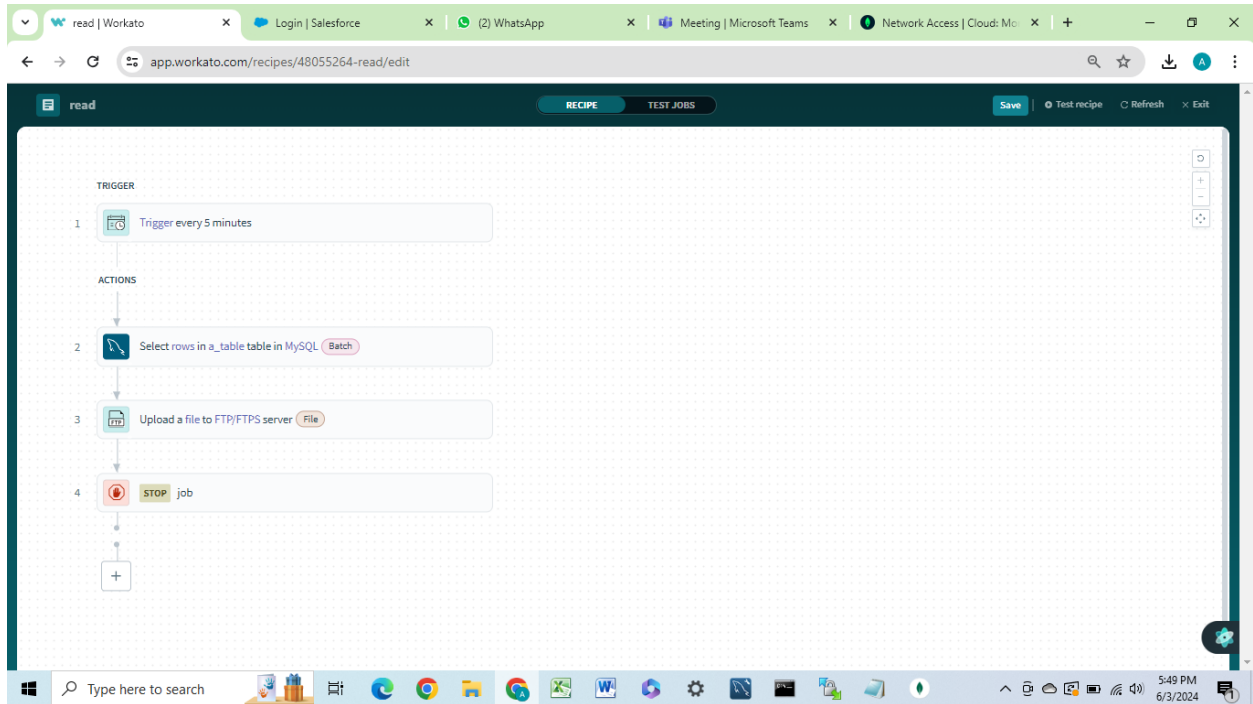

CREATE

The screenshot shows the Workato web interface. At the top, there's a navigation bar with 'create a record' and 'TEST JOBS' tabs. Below this, a status bar indicates the job was successful, started at Jun 3, 2024 10:45:39 PM (PDT) using recipe version 5. The main workspace displays a workflow diagram with five steps: 1. Trigger every 5 minutes, 2. Download file contents from FTP/FTPS server, 3. Parse JSON document, 4. Insert row in a_table table in MySQL, and 5. STOP job. The interface includes a search bar at the bottom and a taskbar with various application icons.

The screenshot shows the MySQL Workbench interface. The top menu bar includes File, Edit, View, Query, Database, Server, Tools, Scripting, and Help. The left sidebar shows the 'SCHEMAS' tree with 'student' expanded, showing 'a_table'. The main workspace displays a query: `SELECT * FROM student.a_table;` and the resulting data grid. The data grid shows four rows of data: EmpId, EmpName, and City. The first row is highlighted. The bottom status bar shows 'Page: 3 of 3' and 'Table: a_table'.

EmpId	EmpName	City
4	kishore	ban...

READ

UPDATE

The screenshot shows the Workato web interface. At the top, there's a navigation bar with tabs for 'update', 'Login | Salesforce', '(2) WhatsApp', 'Meeting | Microsoft Teams', and 'Network Access | Cloud: Mo'. The main header displays the URL 'app.workato.com/recipes/48055554-update/test?job_id=j-AMerdMgs-EWQcdz'. Below the header, the 'update' recipe is selected, and the status is 'Successful'. The recipe details show a 'TRIGGER' of 'Trigger every 5 minutes' and four 'ACTIONS': 'Download file contents from FTP/FTP server', 'Parse JSON document', 'Update rows in a_table table in MySQL', and 'STOP job'. The interface includes a 'Repeat job' button and an 'AssistiQ' chatbot icon.

The screenshot shows the MySQL Workbench interface. The 'Query 1' window displays the SQL query 'SELECT * FROM student.a_table;'. The 'Result Grid' shows the following data:

EmpId	EmpName	City
4	kshore	ban...

The 'SCHEMAS' panel on the left shows the 'student' database selected, with 'a_table' highlighted. The 'SQLAdditions' panel on the right displays a message: 'Automatic context help is disabled. Use the toolbar to manually get help for the current caret position or to toggle automatic help.'
